

Homework 3: Axes, Lines and Areas

Put your name here

Chart 1: A single line

Draw a single line showing AAPL's stock price over the past year, with small dots marking each point. Use AAPL.csv (from Yahoo stock prices).

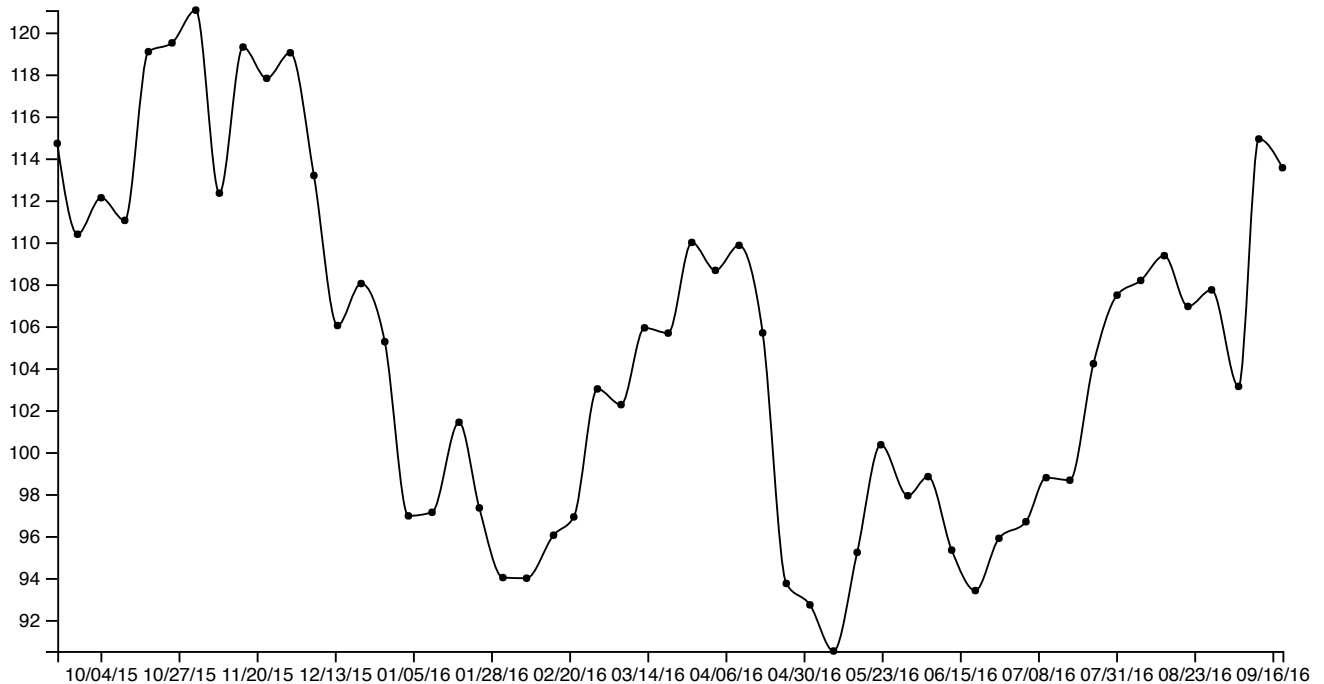

Chart 2: Multiple differently-colored lines, with appropriately-colored dots marking each data point.

Use alcohol-consumption.csv

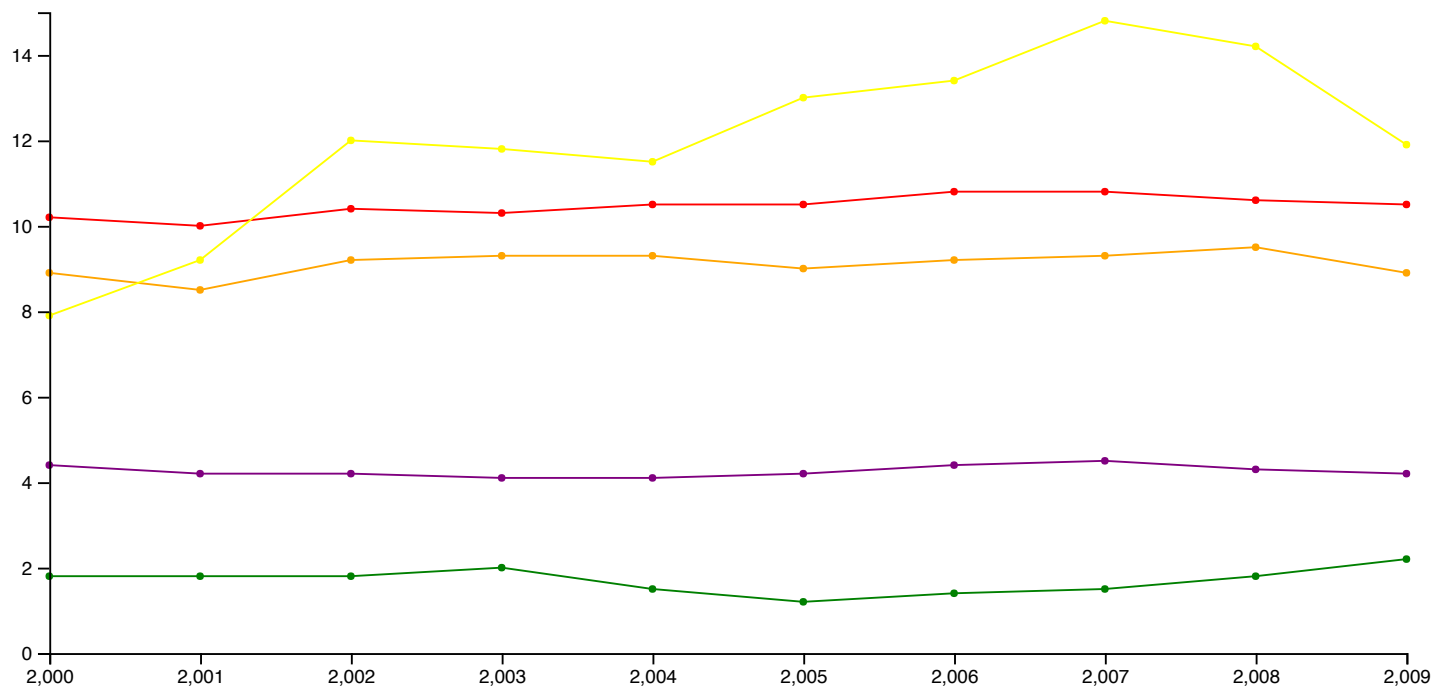

Chart 3: An area graph with multiple overlapping segments

Use air-emissions.csv

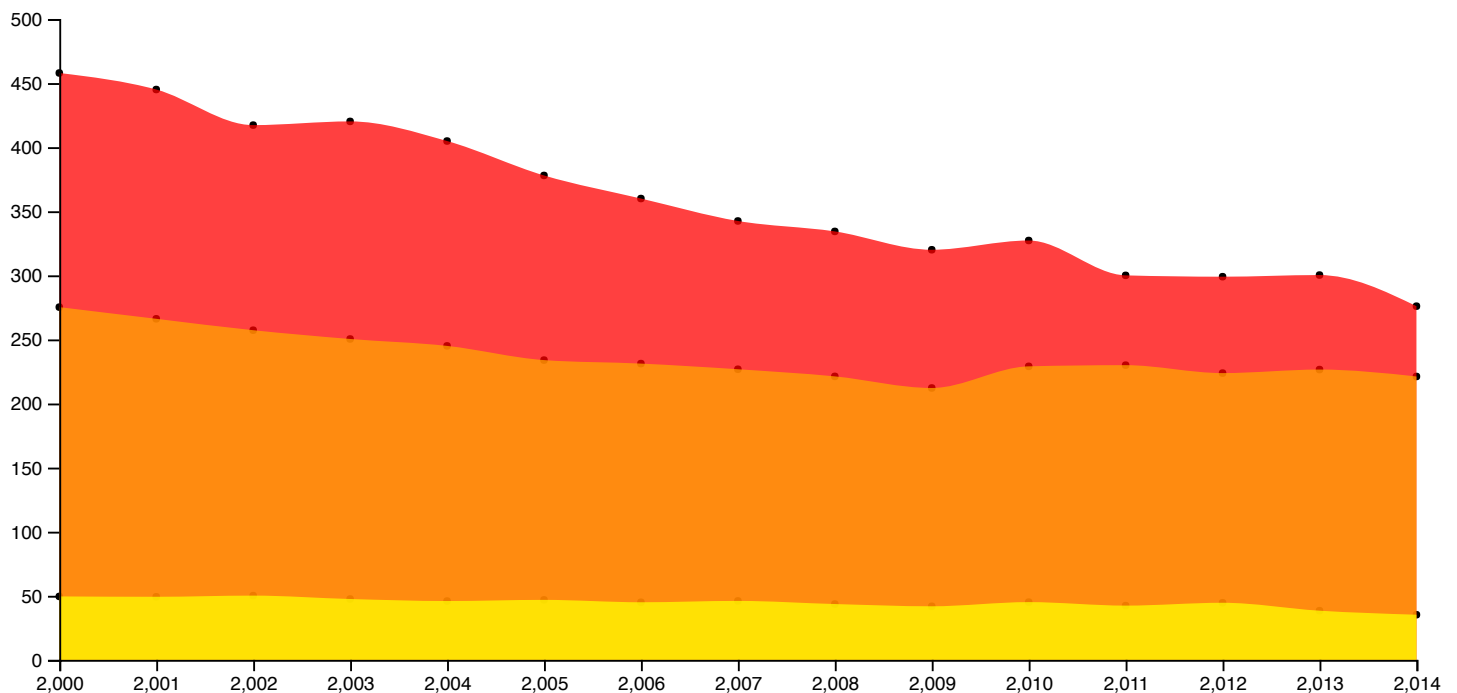

Chart 4: Multiple lines, one highlighted line, with a single dot at the end of the line and some text saying which country that is.

Use air-emissions.csv, highlight the country of your choice

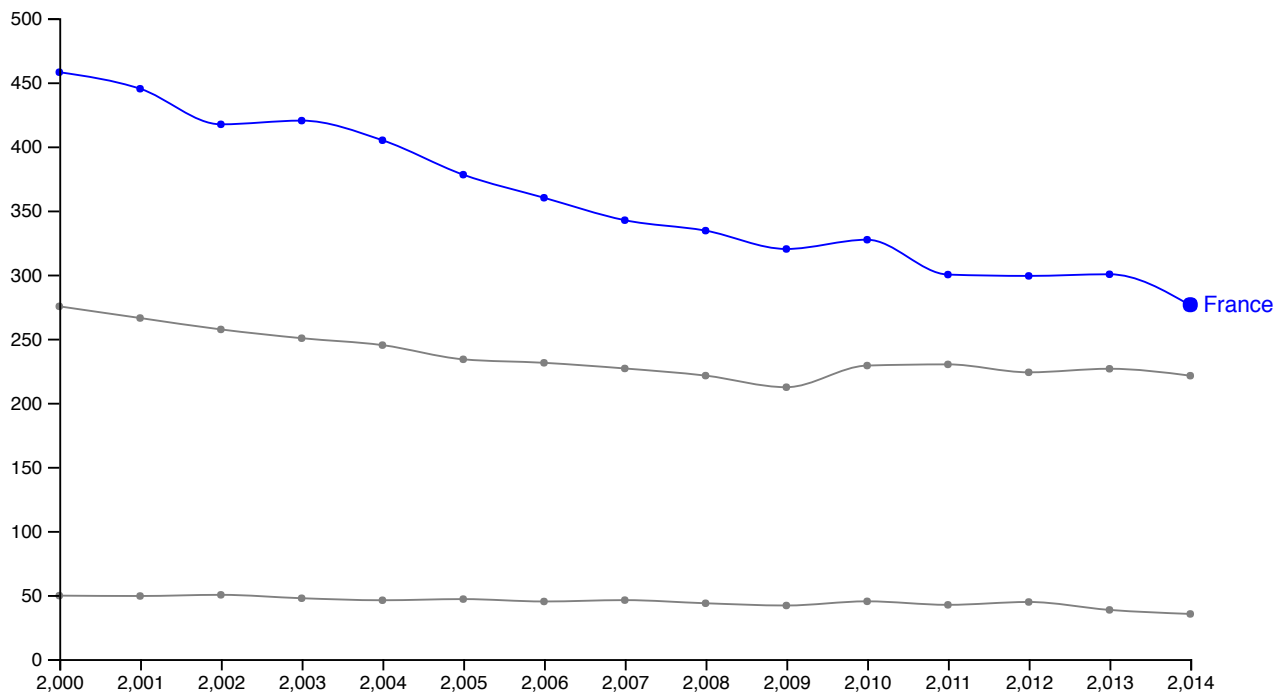

Chart 5: Back to a lot of circles

Use animal-sizes.csv to make 9 circles explaining how large the different animals are. Be sure to read up on `d3.scaleSqrt`!
